Amazing Cookies

1 c Peanut-butter
1 c Sugar
1 lg Egg

Beat the egg. Mix everything together. Preheat oven to 325 degrees F.

Place blobs of cookie dough on a greased cookie sheet in the size you like, and flatten with a fork to make the traditional peanut-butter cookie pattern. Put in oven and bake for 8-10 minutes.

NOTES:

- * These are very simple peanut-butter cookies -- They turn out a little moist, but are yummy.
- * These cookies are a bit moist, so don't worry about that. Don't burn them; they don't taste good when they're burnt.

Ambrosia

- 1 1/4 c Cream, heavy
- 2 Bananas (or equivalent
-amount of soft fruit)
- Broken meringue

Whip the cream. Chop fruit coarsely, but don't crush. Break meringue into large crumbs. Mix everything shortly before serving and pile into glasses.

NOTES:

- * Simple dessert for failed Pavlova attempts -- My mother used to make the banana variety of this when she cooked her meringues a little too long or too hot.
- * I can never make up my mind whether I prefer the strawberry or the banana version. Peach should be pretty good too, though I've never tried it.
- * This is a neat way of saving a Pavlova attempt when the meringue part fails: it produces a delicious desert and no-one need ever know...

Fit it into a 9-inch pie pan and refrigerate it if you plan to finish the pie after several hours, or freeze it if you are completing the recipe at this point. This will prevent shrinkage. Melt the chocolate and butter together in a heavy saucepan. Set aside and allow to cool. Stir the corn syrup and sugar into the reserved eggs. Add the chocolate and butter, vanilla, rum and the pecans. Mix well and pour into the pie shell. Bake in the preheated oven for 1 hour, or until set. The filling will rise and then fall. Aunt Mildred's Noodle Kugel

1/4 c Butter
8 oz Noodles, uncooked
3 Eggs, beaten
4 oz Cottage cheese
2 c Milk
1/3 c Sugar
1 1/2 t Vanilla extract
12 oz Pineapple, crushed,
-with juice
Cornflake crumbs, to top

Melt butter in a 9x13 pan. Add noodles.

Combine remaining ingredients, except crumbs, spread evenly over noodles. Top with crumbs. Bake at 350 degrees F. for about an hour.

NOTES:

* Noodle kugel using uncooked noodles -- This recipe is interesting because you don't cook the noodles first. Serves 6.

* This recipe is very simple, but it does taste a little pastier than recipes that require the noodles to be cooked first. It also comes out very flat -- most of the kugel recipes I've made in the past use twice as many noodles in the same size pan. I found that some of the things can be increased, i.e., add more noodles, more pineapple, more cottage cheese.

Baklava

1 Batch

-----DOUGH-----

1 lb Strudel dough
-(or fillo leaves)
1 lb Butter, unsalted,
-well-melted (salted
-butter (or margarine)
-is not acceptable)

-----FILLING-----

1 lb Walnut meat,
-chopped medium-fine
1/4 c Sugar
1 t Vanilla (or use
-vanilla sugar)

-----SYRUP-----

4 c Sugar
2 c Water
1 t Lemon juice

Heat oven to 300 degrees F. to 325 degrees F.

MAKE THE SYRUP: Boil the water and sugar for 15 minutes. Add lemon juice, boil 10 more minutes, set aside to cool.

MAKE THE FILLING: Mix all ingredients well. I prefer the walnuts fairly coarse; some people like them quite fine.

BUILD THE BAKLAVA: Cut the dough with scissors to the size of the tray. Handle the dough very carefully; do not press hard on it at any time. Cover with wax paper and damp towel.

Take out one sheet of dough at a time and place it in the pan. Brush the dough with melted butter between each layer. Continue until you have about 12 sheets buttered. Small and broken pieces of dough can be used in the center, but there must be butter between every two layers.

Spread walnut filling across the tray. Put on a sheet of dough, brush on butter and continue until all the dough is used up.

Cut into diamond shapes: cut into quarters with cuts parallel to the long axis, then cut diagonally across. Don't press hard!

Bake for about 1 1/2 hour, until golden brown. Be careful not to burn the bottom or the walnuts, especially with a glass pan.

Let cool on rack for 5 minutes. Add syrup which should have cooled to room temperature. Let cool for at least two hours before eating.

NOTES:

- * An incredibly sweet and wonderful Balkan dessert -- Baklava is claimed by almost every Balkan state as its own invention; most people in the United States first encounter it in Greek restaurants. If the truth were known, it's probably the Turkish who invented it, as is the case for many other "typically Greek" dishes. This recipe comes from my Bulgarian grandmother and follows Bulgarian tradition, in that the filling is very simple. Makes two small pans.
- * Probably the hardest thing about this recipe is waiting those last two hours!
- * Depending on where you go, you'll hear the name of this dish pronounced different ways. I pronounce the name with all /ah/ sounds, with accents of equal intensity on both the first and third syllable. The second syllable is quite faint. Greek-speaking persons typically put a heavy accent on the second syllable.
- * Many variations on the filling are to be found. A simple one was mentioned above, regarding the coarseness of grind of the walnuts in the filling. They may even be ground. Spices such as chopped cloves or cinnamon may be added and the filling may be included in several layers instead of just one.
- * A large (14 x 10 inch) pan is almost too big to handle. I typically make this recipe in two 7 3/4 x 11 inch pans, which is just about the size of a half sheet of the dough I buy. By the way, if you can make your own strudel dough, it will be even better... but much more effort.
- * It is best to have a partner help you prepare the pans. One person handles the dough and places it in the pan, while the other applies the butter. It is very important that sufficient butter be placed between layers so that each layer gets flaky, rather than having them stick together. Pay particular attention to the edges and corners.

* In case you haven't noticed, this is very sweet stuff. It goes great with a fine cup of coffee, espresso, or Turkish coffee, even with sugar. Two pieces will probably fill anyone up; it refrigerates and freezes quite well. This recipe requires a lot of effort, but it's well worth it.

To make pastry, combine flour, sugar and butter in a food processor. Process until the consistency of fine meal. Add beaten egg; continue to process just until dough starts to come together. Gather into a ball, wrap and refrigerate for one hour or place in freezer for 15 minutes to chill. Mash the remaining banana and combine with warm cream, 1/2 cup sugar, cornstarch and vanilla. Pour over banana layer. Bake at 350 degrees for 35 - 40 minutes or until filling is set. MAKE CRUST: Mix ingredients for first crust and press in bottom of a 9 x 13 pan. Bake 10 minutes at 350 degrees F. and cool.

Basic Crust I

1 1/4 c Flour
Pinch of salt
3 T Butter
3 T Shortening
3 To 4 Tb. cold water

Sift the flour and salt together into a bowl. Cut the butter and shortening into the flour with a pastry blender or two knives until the mixture resembles coarse meal. Add three Tb. water and mix with a fork and then with your fingertips until the dough can be gathered into a ball.

If the dough is very crumbly, sprinkle a few drops of water over the dough, adding only enough to make the dough stick together. Wrap the dough in wax paper and chill in the refrigerator one hour before rolling out.

ROLLING AND PRE-BAKING : Roll the dough out on a floured board and fit it into a nine to ten inch quiche tin or nine inch pie plate. Cover the pastry with a sheet of aluminum foil, pressing it firmly around the sides and over the edges of the pastry. Fill with uncooked rice or dry beans and bake in a preheated 400 degree oven for 7 minutes. Carefully remove the rice or beans and aluminum foil. Prick the bottom of the crust with a fork and continue baking 5 minutes more. The crust should not brown but should be only partially baked unless otherwise directed in a specific recipe. Let the pastry cool before filling and baking the quiche or pie.

Basic Crust 2

- 2 3-oz. pks. Philadelphia
Cream cheese
- 1/4 c Softened butter
- 2 T Heavy cream
- 1 1/4 c Flour
- 1/4 ts Salt

Beat the cream cheese and butter together in an electric mixer or by hand until smooth and creamy. Add the cream and beat one to two minutes. Gradually add the flour and salt and combine thoroughly. Form the dough into a ball and wrap in wax paper. Chill at least one hour before rolling out.

ROLLING AND PRE-BAKING: It is easiest to roll this dough between two sheets of wax paper. Place a large sheet of wax paper on a board and place the ball of dough on top. Flatten it slightly and place another sheet of wax paper on top of the dough. Roll the dough as you would for Basic Crust I, lifting the wax paper from time to time to keep it smooth. Fit the pastry into your quiche or pie pan and prebake as directed for Basic Crust I

Basic Crust 3

- 1 1/4 c Sifted all-purpose flour
- 1/4 ts Salt
- 1/2 c Grated parmesan cheese
- 4 T Butter
- 4 To 5 T. cold water

Place the flour, salt and parmesan cheese in a bowl. Cut the butter into the flour mixture with a pastry blender or two knives until the mixture resembles coarse meal. Add 4 T. water and stir with a fork, gathering the dough into a ball with your fingertips. Add a few more dropps of water if necessary to make the dough stick together. Wrap the dough in wax paper and chill one hour. Roll out and partially bake as directed for Basic Crust I.

Basic Crust 4

- 1 1/2 c Flour
- 1/4 ts Salt
- 3 T Sugar
- 1/2 c Butter
- 1 Egg
- 2 To 3 T. cold water

Place the flour, salt and sugar in a bowl. Cut the butter into the flour, using a pastry blender or two knives, until the mixture resembles coarse meal. Beat the egg lightly with 2 T. water. Add the egg to the flour mixture and stir with a fork, gathering the dough into a ball with your fingertips. Add water, a few drops at a time, if necessary to make the dough stick together. Wrap the dough in wax paper and chill one hour. Roll out as directed in Basic Crust I. Bake in the same way but extend the baking time by about 8 minutes for a fully baked crust. In most cases, you will use this crust with an unbaked filling so it should be crisp and golden brown.

This crust is used for open fruit tarts or dessert pies.

Berry Best Fried Pies

2 c Blueberries, fresh/frozen

-----DOUGH-----

2 c Flour
1/4 ts Baking soda
1/4 ts ;salt
1/2 c Oil
1/3 c Buttermilk
Oil; for frying

In a saucepan, combine sugar, cornstarch and water; add berries. Cook and stir over medium heat until the mixture comes to a boil. Cook and stir for 2 minutes; set aside to cool. Combine oil and buttermilk; stir into dry ingredients until mixture forms a ball. Roll on a floured board to 1/8" thickness; cut int 4 1/2" circles. Place 1 tablespoon blueberry filling on each circle. Fold over; seal edges with a fork. Berry Cobbler

1/2 c Sugar (for sprinkling)
4 c Berries (fresh or frozen)
1 c Sugar (for the batter)
1 c Flour, all-purpose
1 1/2 t Baking powder
1/2 t Salt
1/2 c Milk
1/4 c Butter (softened)
Nutmeg

Preheat oven to 375 degrees F. Sprinkle about 1/2 cup of sugar on the berries and place them in the bottom of a 2-quart baking dish. Combine the remaining dry ingredients (flour, sugar, baking powder and salt).

Add the milk and softened butter and beat well. Spoon the batter over the berries. Sprinkle some nutmeg on top. Bake for about 45 minutes.

NOTES:

- * You can use pretty well any type of berry for the base. A favourite of mine is a combination of strawberries, raspberries and blueberries.
- * The base of this turns out to be a bit thin and liquidy. If you strain the juice from the fruit, add a couple of tablespoons of flour to the juice, and then pour the juice over the fruit in the baking dish, the base will be semi-firm.
- * You do not need to sprinkle the full 1/2 cup of sugar on the berries; with sweeter berries, much less will often suffice.
- * If you would like a sweeter, candy-like batter, try adding more sugar to the batter. I wouldn't recommend putting more than about 1 1/4 cups of sugar into the batter, though, the crust of the batter will be very candy-like, but the centre of the batter will not properly bake if you do.

Beat the egg and toss into the flour and butter mixture. Press the dough together, wrap and chill it. **FORMING THE PIE SHELL:** Lightly flour the work surface and dough. Roll the dough to a 14-inch diameter disk, 1/8-inch thick. Fit the dough into a 9-inch oven-proof glass pie pan and trim away all but 1/4-inch of the excess dough. Turn the excess dough under and flute the edge of the pie. Chill while preparing the filling. **MIXING THE FILLING:** Rinse and pick over the blueberries and drain them on a paper-towel-lined pan. Combine one third of the berries and the sugar in a saucepan and bring to a simmer over medium heat, stirring occasionally. Simmer the berries in the juices that accumulate about 5 minutes. Strain the juices into another pan. Pour the water into a small bowl and stir in the cornstarch to dissolve it. Return the juices to a boil, beating constantly, and allow to boil about 1 to 2 minutes, beating constantly. Stir in the remaining blueberries, the cooked berries, lemon zest and walnuts, and cool. **MIXING THE CRUMB TOPPING:** Cream the butter until soft, add the sugar and cream until soft and light. Border Tart

** British Measurements **

-----THE PASTRY-----

6 oz Flour
3 oz Butter or margarine
1 oz Caster sugar
1 Egg yolk

-----THE CUSTARD-----

1 tb Cornflour
1/2 oz Butter
5 oz Milk
1 Egg yolk

1 oz Caster sugar
2 dr Vanilla essence

-----THE FILLING-----

4 oz Marzipan
1 oz Almonds; flaked
1 oz Mixed peel; chopped

To make the pastry: Rub the butter into the flour, stir in the sugar and bind the mixture to make a firm dough. Line an 8-inch flan ring and reserve the extra dough for decoration.

To make the custard: Blend the cornflour with a little milk and stir in the remaining milk and sugar. Heat gently until it boils and simmer for a couple of moments before removing from the heat. Stir in the butter and let the custard cool a little before stirring in the egg yolk and vanilla essence. Leave it to cool.

To make the filling: Roll the marzipan to fit the base of the pastry. Sprinkle over the almonds and peel. Spread the cooled custard over this. Using the left over rolled pastry, cut circles of about 1-inch in diameter and arrange these in a pattern on top of the custard.

Cover with a circle of greaseproof paper to prevent burning the custard and bake for 20 minutes at 400øF / 200øC / gas mark 6 and then for a further 20 minutes in a slower oven, 350øF / 180øC / gas mark 4.

Decorate by combining 1 ounce icing sugar with a little warm water and spreading over the pastry circles. Serve either hot and cold.

Busy Day Cobbler

1/4 c Butter (or margarine,
-if you must)
1/2 c Sugar
2/3 c Milk
1 c Flour
2 t Baking powder
13 oz Tart cherries
-(one normal U.S. can)
2 T Sugar (to sweeten
-and thicken; use less
-or more as needed)

Preheat oven to 350 degrees F. Drain cherries, saving liquid.

Cream butter and sugar together. Alternately add in milk and sifted dry ingredients. Pour into a buttered and floured casserole dish. Top evenly with cherries. Sprinkle sugar on top and cover with saved liquid/juice. Bake 45-50 minutes.

The batter will expand and surround the cherries so they're evenly mixed throughout the cobbler. The juice will congeal to fruity and pudding-like. Serve warm topped with cream, milk or ice cream. (I prefer milk). If any is left, it's good cold, too.

NOTES:

* As the name implies, this is a very quick recipe to make. Depending on

how soft the butter is to start with, or whether or if you use a food processor (I don't, but it should work) this recipe takes only 5 to 10 minutes to mix.

* You can use any unsweetened canned fruit for this recipe. You can also use frozen fruit, by thawing it before adding to the pan. Berries or peaches are standard substitutes. Yesterday I made one with crushed pineapple. I used brown, rather than white sugar atop the fruit. It tasted very much like pineapple upside down cake (though the appearance was a bit different).

Butter Cookies

1/2 c Butter (unsalted),
-at room temperature
1/2 c Sugar, granulated
1 1/2 c Flour, white
1 lg Egg
1 t Vanilla extract
1 1/2 t Baking powder

Beat the butter with the sugar. Add the egg and vanilla and beat until you get a uniform mixture. Mix the flour and baking powder and gradually blend them into the mixture. When you're done, you should have a rather sticky dough.

Shape the dough into balls, about 1 inch in diameter. Roll them in sugar and place them on an ungreased cookie sheet, leaving about an inch of space between cookies, so that they don't stick together when they expand.

Bake in preheated oven at 350 degrees F. for 20 minutes. Remove from oven, let them cool for a while, and start eating right away.

Cream together the cheese and sour cream. Fold in sugar gradually. Add vanilla and mix well. Fold in whipped cream. Pour into pie shell and chill for at least 3 hours.

Pour excess syrup from the can of cherry pie filling. Leave some, but you certainly don't need all of it. The sauce should cover the cream cheese mix, but the cherries shouldn't be drowning in it. Pour pie filling on top. Serve cold.

NOTES:

- * A simple cherry cream cheese pie -- My wife makes this for me periodically, and it is always delicious. No baking is required, and it is very easy to make. Makes one pie.
- * If you don't have the time to sit around for 3 hours waiting for the pie to chill, make the cream cheese filling the night before and let the pie chill overnight.
- * We prefer to use non-dairy whipped cream substitute. We usually use the same brand name ingredients for best results: Philadelphia cream cheese, Breakstone's sour cream, Cool-whip and Comstock cherry pie filling.

Chocolate Hazelnut Tart

3 T Cocoa powder
4 T Butter
4 oz Bittersweet or semisweet cho
1 c Dark corn syrup
3 ea Eggs
1/4 c Sugar
1 ea Lg Egg
4 T Butter
1/2 c Sugar
2 T Dark rum (optional)

Chocolate Dough

1 c Unbleached all-purpose flour
Pinch salt
1/4 t baking soda

Chocolate-Hazelnut Filling

2 c whole Hazelnuts

The already buttery flavor of the hazelnuts pairs them naturally with the chocolate filling. Walnuts or pecans make good variations. **Mixing the Dough.** Sift the dry ingredients together three times. Rub in the butter and moisten with the egg as for Sweet Pastry Dough. Shape into a disk, wrap, and refrigerate. **Cooking the Chocolate-Hazelnut Filling.**

Place the hazelnuts on a baking pan and toast at 350 degree F until the skins are loose and come off easily, about 10 minutes. Rub the hazelnuts in a towel to remove the skins. Chop the hazelnuts coarsely, by hand or with a food processor. Combine the chocolate with the butter in a small bowl. Bring a small pan of water to a simmer and turn off the heat. Place the bowl of chocolate and butter over the hot water and stir to melt. Combine the corn syrup and sugar in a small saucepan. Bring to a full rolling boil over medium heat. Remove from heat and stir in the chocolate mixture. Beat the eggs and salt with the optional rum. Beat in the chocolate mixture, taking care not to overbeat. **Assembling.** Lightly flour the work surface and dough. Roll the dough to a 14-inch diameter disk, 1/8 inch thick. Line a 10-inch tart pan with the dough, trimming away the excess. Stir the chipped hazelnuts into the filling and pour the filling into the pan. **Baking.** Bake at 350 degree F until the filling is set and the crust is baked through, about 40 minutes. **Holding.** Store the tart at room temperature up to 2 days.

Beat the egg whites until stiff peaks forms. Set aside. Heat the cream and medium heat. When the butter is well-incorporated into the cream, add the chocolates. Stir off the heat until melted and well-blended. Add the egg yolks.

the whites into the chocolate.

Fill the crust with the filling and refrigerate several hours. If you like may add Bailey's Irish Cream to the filling to flavour and whip cream with a tiny bit of sugar and some Frangelico liqueur. -tan frosting)
Food coloring

Cream together the shortening and sugar. Beat in the eggs, salt and flavorings. Stir in the flour until blended. Chill in the refrigerator for an hour or two.

Preheat oven to 375 degrees F. Roll out on a floured surface to a thickness of about 1/8 to 1/4 inch. Cut with the cookie cutters of your choice (this was always a cause for argument in our family). Bake on ungreased cookie sheets until tan around the edges, about 8-10 minutes. Allow to cool.

Make the frosting by beating together the sugar, milk and vanilla until smooth. Divide and color each portion. Frost the cookies.

NOTES:

* Frosted cookie-cutter cookies -- My mom got this recipe many years ago

in a cookbook that came in installments, so it didn't have a name on the binder and I don't know what it was called. She had us (the kids) make these cookies every year. 2-4 dozen.

* These cookies are about the only ones I know that taste better cooked and cold than as raw dough.

* Cinnamon red hots make good eyes for animals or Santas.

Drop by rounded teaspoonfuls onto greased, floured cookie sheets. Press an almond in center of each cookie. Bake at 300 degrees F. for 20 to 25 minutes. Remove to racks to cool.

NOTES:

- * Holiday cookies -- Coconut and almonds give this cookie a distinctive flavor. For me the almonds are required.
- * It is a lot of work to beat the egg whites enough without an electric mixer.
- * This cookie must be handled a little more carefully than most as it forms a white shell which causes it to be slightly delicate.

Cream Cheese Butter Cookies

1/2 lb Butter
1 c Sugar
2 1/2 c Flour, all-purpose
1 Egg yolk
4 oz Cream cheese
Raspberry jam

Preheat oven to 350 degrees F. Cream together the butter and sugar. Add the flour and egg yolk and mix well. Add the cream cheese and mix well.

Roll into balls about 5/8 inch diameter. Place them on an ungreased cookie sheet (the cookies don't grow when baked, so they can be somewhat close together). Then press your thumb into each to flatten it and make an indentation to hold some jam. Fill it with jam. Bake at 350 degrees F for 15 to 20 minutes.

You can use any flavor jam you like. The jam is the only part of the cookie that has any texture, so I prefer using it to jelly.

Don't eat the cookies straight from the oven, or you'll probably burn your tongue. The jam stays hotter much longer than the cookie.

NOTES:

* A pound cake made with cream cheese -- I got this recipe from Annette Hall at Computer System Resources, in Georgia (annette@gacsr.UUCP). She posted it to net.cooks, claiming that it's the best pound cake you'll ever taste. She's right! One large cake.

Ernest Hemingway Key Lime Pie

Some might wonder the connection between Key Lime Pie and Ernest Hemingway, but he hung out a lot, a regular squatter of sorts, at Papa John's Bar, Key West Florida. There are not too many recipes attributed to him, and then I recently ran across this one for Key Lime Pie. The intro to the recipe attributes that Hemingway used to live at 1599 Bathurst Street in Toronto, Canada. He was working as a young journalist then for the Toronto Star. He eventually moved to Florida, then Cuba, and developed a fond appetite for white rum, seafood and Key West Lime Pie. He hung out quite a bit with such randy's as Steven Boyd. Papa John's is quite a museum in itself and sports newspaper articles and pictures of Papa and his cronies (including Boyd). So here is Papa's Key Lime Pie. I do believe this recipe was printed at one time in the Toronto Star. 1 cup sugar 250 mL 1/4 cup white flour 50 mL 3 TBS cornstarch 40 mL 2 cups spring water 500 mL 3 egg yolks 3 1 TBS margarine 15 mL 1/4 cup fresh lime juice 50 mL grated rind of 1 lime one baked pie shell meringue pie topping

Combine sugar, flour, cornstarch in top of double boiler and gradually stir in water. Cook over medium heat, whisking until thickened.

Beat egg yolks and gradually stir some of cooked mixture into beaten egg yolks. Return this mixture to double boiler and cook and whisk another 3 minutes.

Stir in margarine, lime juice and rind. Cook to lukewarm. Pour into your favorite baked shell and cool thoroughly. Top with meringue and brown under broiler, or your favorite whipped cream topping.

For you pie shell, why not add a small amount of sugar and some finely crushed macadamia nuts? Takes it a cut above.

(And I always use more lime juice--its a matter of taste. I like it tart and cut back on the sugar.)

Get the pastry from the fridge and roll out and line an 8 in flan case pie dish , I'm not sure what you call it , and prick the base with a fork. Bake the pastry blind , lined with foil & baking beans, for 15 mins in a hot oven (180-200 C) so that it doesn't rise too much but is golden.

Remove the base from the oven.

Separate the two eggs , retain the whites , and beat the yolks into the lemon mixture until smooth . Beat the sugar into the lemon mixture until smooth . Fill the pastry case with the lemon mixture . Add a tablespoon of sugar to the egg whites and whisk until it forms peaks fold in the rest of the caster sugar and pile on top of the pie. Bake in the oven until the meringue is nicely brown . Unmold into a platter and sprinkle with cinnamon. Slice it using a wet knife, serve, and watch your weight go sky high!

Hazelnut Cherry Tart

-----PASTRY-----

1/2 c Plain flour
1/8 t Salt
2 oz Hazelnuts, roasted
-ground
2 T Sugar
2 oz Butter
1 Egg yolk
2 t Water

-----CUSTARD FILLING-----

4 Egg yolks
1/4 c Sugar
1 t Vanilla extract
1 3/4 c Cream
3 t Gelatine
2 T Water

-----TOPPING-----

2 lb Cherries, canned
2 t Gelatine
2 t Rum (see note)

MAKE PASTRY: Sift flour and add all dry ingredients together, with the sugar in the centre, on a pastry board. Add the butter (softened), egg yolk and water. Work the liquids into the sugar, until it is creamy.

Now work in the flour mixture, as you would for any sweet pastry. Press the dough into a greased 9-inch flan tin. Prick the base of the pastry all over. Refrigerate for 30 mins, then cook in a moderate oven (375 degrees F.) for 15 to 20 mins (until golden brown)

MAKE FILLING: Put egg yolks, sugar and vanilla into a bowl and beat until thick and creamy. Heat cream carefully until almost boiling.

Combine the two mixtures, beating until smooth, then add the result to the top of a double boiler and simmer until it thickens (**STIR CONSTANTLY**).

Dissolve the gelatine in the water and add to the cream mixture, stirring well until it is well mixed. Allow this mixture to cool completely before adding to the pastry case. Refrigerate until it sets.

MAKE TOPPING: Drain the cherries and reserve about 1 cup of the syrup. We don't use commercial canned cherries. I would suggest a "light" syrup. Arrange the pitted cherries artistically over the top of the tart.

Put the reserved syrup, gelatine and rum (we usually use cherry brandy or kirsch) into a saucepan and heat (stirring) until gelatine dissolves. Cool the liquid and pour over the cherries. Refrigerate until set.

Helen's Carrot Cake

4 Eggs, separated
1 1/2 c Sugar
1 c Carrots, grated
1 c Walnuts, finely grated
1 1/2 c Flour
1 t Baking powder
1/4 t Nutmeg
1/2 t Cinnamon
1 t Vanilla extract
1 pn Salt
1 c Oil
2 1/2 t Water, hot
1/2 t Baking soda

-----FILLING-----

8 oz Cream cheese
1/2 c Sugar
1/2 c Jam (strawberry,
-apricot or raspberry)

-----FROSTING-----

1 c Whipping cream
2 T Sugar

Preheat oven to 350 degrees F. Cream together egg yolks and about 1 cup of the sugar until the yolk color lightens. Stir in carrots, nuts, flour, baking powder, nutmeg, cinnamon, vanilla, salt and oil. Mix together hot water and soda and stir into flour mixture.

Beat egg whites until foamy. Gradually add remaining sugar. Beat until stiff and glossy. Fold egg white mixture into flour mixture.

Turn mixture into a greased pan, 13 x 9-inch, lined with greased wax paper and bake for 45 minutes or until done. Cool. Slice in half horizontally, to form two layers.

Make the cream cheese filling: soften the cream cheese and beat in the sugar, mixing gradually, until the filling is smooth and fluffy. A food processor works well for this.

Cover bottom layer with cream cheese filling, then cover cream cheese layer with jam. Place the top layer of the cake carefully on top of the jam.

Make the frosting: beat the whipping cream until slightly stiff, then add

the sugar and beat the mixture to stiff peaks. Frost the entire cake with whipped cream.

This recipe calls for browned pumpkin which is accomplished by buttering a heavy cast iron frying pan and cooking the 2 cups pumpkin over medium heat, stirring and turning so all parts dry properly. Keep this up til it is reduced to 1 1/2 cups. It will be slightly browned.

Place the browned pumpkin in a bowl, sprinkle with flour and brown sugar and stir til thoroughly mixed. Add spices and eggs and beat well. Scald milk. Add the canned milk to scalded milk. Add milks to pumpkin mixture Beat together til well mixed.

Place mixture in a greased casserole and place it in a larger casserole with hot water that comes half way up the outside of inner casserole. Place in a 325 F oven and oven poach til a knife comes out clean when tested. Serve hot or cold.

This is actually my pumpkin pie filling, but I prefer it without the pastry and it is better for me. No great amount of fat in this one.

In a small bowl, mix about 5 T sugar with the butter and cinnamon with a sturdy fork, until they are blended and resemble cornmeal (i.e., you should have a mixture of fine crumbs, not a smooth mixture). Sprinkle topping over batter. Bake for 20-25 minutes, until a clean toothpick inserted in the center of the cake comes out dry. Cool slightly; serve warm or at room temperature. - 2 c All-purpose flour
- 3/4 ts Salt
- 2/3 c Butter, chilled, cut into 8 pi
- 1 ea Yolk of large egg

This rich, all-butter recipe makes two single piecrusts or one double crust pie; margarine may be substituted for butter, if desired.

In a large bowl, combine flour and salt. With pastry blender or two knives, cut in butter until mixture resembles coarse crumbs. In small bowl, beat egg yolk with 3 tablespoons ice water; sprinkle mixture, 1 tablespoon at a time, over flour mixture; toss with fork to blend lightly but evenly. Add up to 1 tablespoon water, if necessary, until dough begins to form a ball. Knead dough gently 2 or 3 times; flatten into disk shape.

TO MAKE SINGLE CRUST: On lightly floured surface, roll out half dough to 11 to 12" circle (see note); fit into 9" pie plate; trim, leaving 1" overhang. Dampen underside of hangover with water; turn under; flute edges or make decorative edging as described below. Place in freezer 10 minutes. Note: Depending on depth of edge or type of edging used for crust, you may need up to full recipe dough. Any unused dough can be frozen, tightly wrapped, for up to 2 months.

TO MAKE DOUBLE CRUST: Roll out dough as for single crust pie; fit into pie plate; trim. Roll out remaining dough to 11 to 12" circle; fit over top of pie; trim, leaving 1" overhang. Dampen edges of pastry with water; press together or turn under; flute edge. Cut vents for steam in center of top crust.

PREBAKED PIE SHELL: Prepare jiffy Butter crust, recipe above, or one 10 or 11 ounce package piecrust mix according to package directions. Roll out half dough; fit into 9" pie plate; prepare single crust as directed. After fluting, place in freezer 10 minutes. Heat oven to 425 degrees. Line crust with foil; fill foil with dried beans or rice. Bake 6 minutes. Remove foil and beans; bake 8 to 10 minutes longer until pie shell is lightly browned. Cool

completely on wire rack before filling. Makes one 9" pie shell.

EDGINGS:

ROPE: Fit and shape pastry crust as in Jiffy Butter Crust recipe; trim to leave 1 1/2" overhang. Dampen overhang with water; roll under to make high standing edge. Press right thumb into pastry edge at an angle; press and squeeze pastry between thumb and knuckle of forefinger. Repeat, keeping same angle to make ropelike edging.

LEAF: Fit and shape pastry crust as in Jiffy Butter Crust recipe, turning edge under. Press flat to rim of pie plate. With sharp paring knife, cut out 1" oval-shaped leaves from leftover pastry scraps. Lightly mark veins on leaves. Dampen rim of pastry crust with water; place leaves in slightly overlapping pattern around edge; press gently but firmly to adhere.

SCALLOPED: Fit and shape crust as in Jiffy Butter Crust recipe, turning edge under. Place forefinger of left hand inside crust edge. Using thumb and forefinger of right hand, pinch around left forefinger to make wide scallops. Repeat around border, making sure scallops are same size.

BRAIDED: Fit and shape pastry crust as in Jiffy Butter Crust recipe, turning edge under. Press edge flat to rim of pie plate. Roll leftover pastry into long thin rectangle; cut into long strips, 1/4" wide. Weave strips into one long continuous braid to fit around rim of pie crust. Brush rim with water; set braid in place; press gently to adhere.

SUNBURST: Fit and shape pastry crust as in Jiffy Butter Crust; trim edge exactly to fit pie plate rim. Cut pastry edge at 1/4" intervals, making each cut 3/4" long. Dampen cut edge with water; fold over each pastry section into triangle, pressing to seal.

Key Lime Pie

- 3 Eggs
- 14 oz Condensed milk (one
-standard can)
- 4 oz Key Lime juice
- Sugar
- 1 Graham cracker pie
-crust

Separate the eggs. You'll be whipping the whites, so put them in a large enough bowl. Combine the egg yolks, the condensed milk and the juice, and stir until thoroughly combined. The acidity of the juice thickens the milk and eggs into a custard.

Add a pinch of sugar to the egg whites, and beat them until stiff but not dry.

Spoon the custard into the pie crust and even it out. Spoon the beaten egg whites on top of the custard and even it out so it looks pretty.

Chill before serving. If you like, run the pie under a hot broiler for a minute until the egg whites are slightly browned. (This is primarily for appearance, it doesn't affect the flavor much.)

Key Lime Pie "Original"

1 ea Unflavored gelatin
1/4 c Water
2/3 c Sugar; divided
1/2 c Key lime juice
1/4 t Salt
2 t Grated lime rind
4 ea Eggs; separated

9" ea baked pastry shell I got this recipe from a "Cracker," and it will dispute the previous statement that all will agree on how to make the best Key Lime Pie. My tree froze, but came back, so we've enjoyed this recipe a lot this year. Mix together gelatin, 1/3 c sugar and salt in saucepan. Combine slightly beaten egg yolks, water & lime juice. Add to gelatin mixture. Place over low heat, stirring constantly, until gelatin dissolves, about 6 min. Remove from heat and add rind. Cool. Beat egg whites until stiff but not dry. Gradually add remaining 1/3 c sugar and beat until stiff. Fold in gelatin mixture. Turn into pastry shell and chill until firm. Garnish with whipped cream and lime slices if desired. Note: To make lime chiffon cream pie, fold in 1/2 c heavy cream, whipped before turning into pastry shell. This is a much lighter pie than the one using sweetened condensed milk, and I think it has a more of the flavor of Key limes.

Kitchenaid Pie Pastry

- 2 1/4 c Flour, all-purpose
- 3/4 c Shortening, well chilled
- 2 T Butter or margarine, chilled
- 5 T Or 6 water, well chilled

Sift flour and salt into bowl. Cut shortening and butter into 4 to 5 pieces and drop into bowl. Attach bowl and flat beater. Turn to Stir Speed and cut shortening into flour until particles are size of small peas, about 30 seconds.

Add water, a tablespoon at a time, until all particles are moistened. Use only enough water to make pastry form a ball. Watch dough closely as over mixing will result in a tough crust.

Chill in refrigerator 15 minutes. Roll to 1/8-inch thickness between pieces of waxed paper. Fold pastry into quarters; ease into pie plate and unfold, pressing firmly against bottom and side. Trim and crimp edges.

Fill and bake as desired.

Yield: Two 8 or 9-inch single crust or one 8 or 9-inch double crust.

For Baked Pastry Shell: Prick sides and bottom with fork. Bake at 450F for 8 to 10 minutes until light brown. Cool completely before filling.

HINT: I also chill the wax paper and rolling pin.

Kolachki

-----COOKIE DOUGH-----

1/2 lb Cream cheese
-(at room temperature)
1/2 lb Butter (at room
-temperature)
3 c Flour
1 x Walnut filling, below
-OR
12 oz Poppy seed filling
-(1 can)

-----WALNUT FILLING-----

1 lb Walnuts, finely ground
1 Egg
1 c Sugar
Water

Mix butter and cream cheese until smooth. Add flour and mix again until smooth. Making this dough is easy with a food processor, hard with a mixer.

Roll dough into 3 balls. Refrigerate dough to keep it from drying out. The dough can be refrigerated for 1-2 hours, but it is not necessary. Roll out 1 ball at a time and flour lightly. Roll dough out in flour or granulated sugar so it doesn't stick.

Cut dough into squares or circles using cookie or biscuit cutter. Add about a teaspoon of filling. Roll squares into "logs." Fold circles over and seal with a fork. Bake at 375 degrees F. for 10-15 minutes or until lightly browned.

MAKE FILLING: Mix all ingredients together. Add water to obtain a sticky consistency.

Kourabiedes

30 Pieces

2 c Butter, unsalted
1 c Sugar, powdered
3 Egg yolks
3 T Brandy
2 t Vanilla extract
6 c Flour
1/2 c Almonds (blanched),
-chopped
1 lb Sugar, powdered
-(one package)

Beat the butter with the sugar until it becomes fluffy. Add the egg yolks one by one, beating continuously. Add the brandy and vanilla.

Blend in the almonds and the flour, a cup at a time. Use enough flour to get a firm dough (it may take a bit more or less than the amount mentioned in the ingredients list). Use your hands to do the mixing, as an electric mixer will be useless after the first two or three cups of flour have been added. Place the dough in the refrigerator for at least one hour.

Shape the dough into balls, about one inch in diameter, flatten them and place on greased cookie sheets. Bake at 350 degrees F. for 20 minutes.

Remove from the oven. Roll each cookie (while it is still hot) in the powdered sugar and put it back on the cookie sheet. Repeat this step once more, so that you get a thicker coating.

Place the coated cookies on a platter, liberally sprinkling each layer and the bottom of the platter with powdered sugar. When you are done, there shouldn't be any sugar left. Let them cool and they are ready to eat!

In a stainless steel bowl placed over a saucepan of simmering water, whisk together the eggs, sugar, and lemon juice until blended. Cook, stirring constantly (to prevent it from curdling), until the mixture becomes thick (like sour cream or a hollandaise sauce) (160 degrees F or 71 degrees C). This will take approximately 10 minutes. Remove from heat and immediately pour through a fine strainer to remove any lumps. Cut the butter into small pieces and whisk into the mixture until the butter has melted. Add the lemon zest and let cool. The lemon curd will continue to thicken as it cools. Mom's Baklava

3 c Almonds, ground
-(1 lb)
4 c Walnuts or pecans,
-ground (1 lb)
3/4 c Sugar
3/4 c Water
1 Cinnamon stick
1 1/2 c Honey
1/2 c Sugar
2 t Lemon peel, grated
2 t Cinnamon, ground
1 1/2 c Butter, melted
1 lb Filo, thawed

Spread nuts in a shallow baking pan and toast at 300 degrees F. for 10

minutes or until lightly browned. Cool.

Combine 3/4 C sugar, water and cinnamon stick in a saucepan. Boil until clear. Add honey and heat until well-blended. Cool and remove cinnamon stick.

Combine 1/2 C sugar, lemon peel, and ground cinnamon in a large mixing bowl. Mash together with back of a spoon to blend citrus oil with sugar. Add cooled toasted nuts and mix well.

Butter a 9x13 inch pan. Line it with 3 sheets of filo, each of which has been brushed with melted butter. Let filo overlap sides of pan. Sprinkle with 1/2 cup of nut mixture. Repeat, alternating 2 sheets of buttered filo and nut mixture, ending with filo. (After the second set of sheets overlap the edges of the pan, start folding the sheets in half after they are buttered. They will fit almost perfectly in the pan.)

After you put in the final sheet of filo, fold the filo that has been hanging off the pan back onto the top sheet of filo so you have a neat, sealed package. Using a razor blade or very sharp knife, cut through the top layer of filo, making lengthwise strips 1 1/2 inches wide. Cut diagonally, making diamonds.

Bake at 325 degrees F. for 1 hour or until golden brown. Remove from oven, place pan on rack, and quickly cut pieces through completely. Immediately pour cooled honey syrup over the baklava. Stop when you run out of syrup or when the baklava stops sizzling when the syrup hits it. This will help keep it crispy and keep it from becoming soggy. Cool and serve. Makes about 4 dozen pieces.

Beginning with the marmalade-filled end, roll up jelly roll fashion. Place each roll, seam side down, on a baking sheet. Lightly coat tops of rolls with cooking spray. Bake for 7 minutes. Original Key Lime Pie

1 ea Unflavored gelatin
1/4 c Water
2/3 c Sugar; divided
1/2 c Key lime juice
1/4 t Salt
2 t Grated lime rind
4 ea Eggs; separated
1 x 9" baked pastry shell

I got this recipe from a "Cracker," and it will dispute the previous statement that all will agree on how to make the best Key Lime Pie. My tree froze, but came back, so we've enjoyed this recipe a lot this year. Mix together gelatin, 1/3 c sugar and salt in saucepan. Combine slightly beaten egg yolks, water & lime juice. Add to gelatin mixture. Place over low heat, stirring constantly, until gelatin dissolves, about 6 min. Remove from heat and add rind. Cool. Beat egg whites until stiff but not dry. Gradually add remaining 1/3 c sugar and beat until stiff. Fold in gelatin mixture. Turn into pastry shell and chill until firm. Garnish with whipped cream and lime slices if desired. Note: To make lime chiffon cream pie, fold in 1/2 c heavy cream, whipped before turning into pastry shell. This is a much lighter pie than the one using sweetened condensed milk, and I think it has a more of the flavor of Key limes.

Our Lemon Pie

3 tb Margarine;
10 Graham cracker squares;
1/2 c Skimmed evaporated milk;
-cold
1 pk Dream Whip;
27 pk Equal sweetener;
2 Egg yolks;
2 lg Lemons; 1/2 cup juice
3 Egg whites;
3 tb Sugar;

Melt margarine on medium to low heat. Roll graham crackers into crumbs with rolling pin. Mix crumbs and melted margarine. Pat to make crust on bottom and sides of pie pan. Chill.

Add cold evaporated milk to Dream Whip (do not add vanilla). Sprinkle in 24 pkg. Equal. Mix and beat according to directions. Beat egg yolks slightly, and gradually stir in lemon juice. Gradually fold in the whipped Dream Whip. Spread in pie crust. Turn on broiler so it will get hot. Beat 3 egg whites frothy (use clean beaters so whites will beat up as fluffy as possible). Add 1 tbs. sugar and beat until blended in. Add another tbs. sugar and 3 Equal pkg. and beat until soft peaks form. Spread meringue over top. Spread meringue to stick to the edges so it won't shrink when you broil it.

Put under broiler for 30-60 seconds until meringue is lightly browned. IT DOESN'T TAKE LONG AT ALL AND IS EASY TO BURN. The flavors will blend better if you chill for 5 hours.

Paper Bag Apple Pie

Prepare and set aside one unbaked pie shell.

Pare and core about 8 cooking apples. Cut into quarters and cut these in half (not 1/8). Place in a large bowl and set aside.

Combine and mix well: 1/2 C. sugar, 2 T. flour, 1/2 t. cinnamon (the original recipe calls for nutmeg, but my family prefers cinnamon). Sprinkle over apple chunks and toss slightly. Spoon into prepared shell. Sprinkle over top: 2 T. lemon juice.

Combine in bowl: 1/2 C. sugar, 1/2 C. flour. Mix well and add 1/2 C butter or margarine. Cut in butter with a pastry blender or two knives until mixture is coarse, like cornmeal. Sprinkle this mixture evenly over top of pie.

Slide pie into a large, heavy supermarket paper bag. Fold open end twice and fasten with paper clips. Place on a baking sheet. Bake at 425 for 1 hour. Remove from oven, split bag open and cool pie on wire rack. DO NOT open bag while baking! This is a great pie and one that friends always request from me. Enjoy!

Pavlova I

4 Egg whites
-(at room temperature)
1 c Sugar, castor
1 T Vinegar
Cornflour

With an electric mixer, beat the egg whites until soft peaks form, then gradually add the sugar (about 1 t every 30 seconds). This will take

around 15 minutes. Beat until firm. Add the vinegar. When combined, turn out onto a flat baking sheet that has been greased and dusted with cornflour. Shape it so that there will be a hollow in the centre to hold the fruit.

Cook in a pre-heated, warm oven (350-375 degrees F.) for 10 minutes, then at 200-250 degrees F. for 40-50 mins.

When cooked, turn the oven off and allow to cool slowly in the oven for at least an hour, preferably overnight. Gradual cooling is important. Serve cold, topped with whipped cream and fresh fruit such as strawberries, bananas and kiwi fruit.

Pavlova II

4 lg Egg whites
1 c Sugar, castor
1 t Cornflour
1 t Vinegar
1 t Vanilla flavour

Preheat oven to 250 degrees F. With an electric mixer beat the egg whites until soft peaks form, then gradually add the sugar. Beat until firm.

shape with slightly more mixture at the edges so that it may be served by placing goodies in its centre depression.

Cook in a pre-heated, cool (250 degrees F.) oven for one hour. When cooked, turn the oven off, leave the oven door slightly ajar, and allow to cool slowly in the oven. This slow cooling works to prevent the loss of too much height. Serve cold, with whipped cream and fresh fruit pieces, strawberries and kiwi fruit for example.

Persimmon Pie

- 1 Unbaked 9-inch pie crust

- 1 tb Flour
- 1/3 c Honey
- 1 tb Sorghum
- 1 ts Cinnamon
- 1/2 ts Nutmeg

- 1 c Evaporated milk

Brush crust with egg white from one of the eggs; set aside. Mix persimmon with flour, honey, sorghum and spices. Beat in eggs and milk. Pour into prepared pie crust. Bake at 400F 40-50 minutes until pie doesn't jiggle when shaken. Cover edges with circle of foil if crust begins to brown too much.

Native persimmons are so sweet that they have also been called wild figs or sugar plums. The English word persimmon is said to have come from the Algonquin word pessemin. Like apricots, persimmons contain ample amounts of vitamins A and C. The easiest way to get persimmon pulp is to puree fully ripe persimmons using a food mill or a Chinaman sieve. Aluminum or plastic sieves are best since iron or tin will turn the rosey orange pulp dark. Freeze any you don't use now for use later in winter and spring. When ripe, persimmons are very soft and take on a dusty pale lavender cast. Persimmon pulp can be used in any pumpkin recipe with similar results. It marries well with cinnamon, nutmeg and orange. Since it is not as thick as pumpkin, adding a little flour to pie fillings is a good idea.

6 egg yolks
1 cup white sugar
1 (.25 ounce) package unflavored gelatin
1/2 cup cold water
2 cups heavy cream
1/2 cup rum
1/8 cup grated semisweet chocolate

Rum Pie

Make two chocolate crumb
Crusts using chocolate
Wafers (8 or 9 inch crusts)

Soak:

1 pk Gelatin

1/4 c Milk

In a double boiler put:

1 c Milk

1/2 ts Nutmeg

3 Egg yolks, beaten

1/2 c Sugar

Cook in a double boiler, stirring constantly until consistency of thick cream. Add gelatin and stir until dissolved. Add 1 teaspoon of vanilla. Cool until nearly set. Add 3 tablespoons of rum. Whip 3 egg whites until fluffy, add 1/4 cup of sugar, beat until stiff and glossy. Fold into egg mixture. Chill. Cover with whipped cream. Chill.

Rum/bourbon Balls

3 c Vanilla Wafers
-(crushed)
1 c Sugar, powdered
1 1/2 c Nuts, chopped
1 1/2 t Cocoa powder
2 T Corn syrup, white
-(honey also works well)
1/2 c Rum or Bourbon

Mix all dry ingredients and set aside.

Mix corn syrup or honey with rum or bourbon to thin the syrup. Blend wet mixture into dry ingredients with fork. Mix well. Allow to sit for 1-2 hours.

At this point, if you let it sit a couple of hours, you can come back and add another about 1/2 cup of rum or bourbon and let sit again. This process may be repeated a few times to your taste. The last time, the mix should sit a couple of hours so it's not really moist. There's a good midpoint between too moist and too dry where rolling into balls won't be difficult (too wet) or cause crumbling (too dry).

Roll into balls, then roll in powdered sugar to make a sugar coating. When rolling in powdered sugar, the moister they are, the more sugar will be absorbed over time. They may need another roll in the sugar right before serving.

When I tried baking it at an initial temp. of 425 F. for 15 minutes and reducing it to 325 F. afterwards for 45 minutes more, I got a better crust and the filling was always cooked...

Smetanik - Berry Jam & Sour Cream Pie

-----PASTRY DOUGH-----

8 tb Butter;unsalted

3 tb Shortening;Vegetable,chilled
2 1/4 c Flour; all purpose
1/4 ts Salt
5 tb Water; iced; more as needed

-----FILLING-----

2 c Almonds; Finely ground
4 ts Milk
6 tb Rasberry Jam
6 tb Cherry Jam
2 Egg yolks
1/3 c Sour Cream

2 ts Cinnamon
1 tb Butter;softened

Pastry: In a large mixing bowl, combine the butter, vegetable shortening, flour and salt. Working quickly, use your fingertips to rub flour and fat together until they blend and look like flakes of coarse meal. Pour ice water over mixture all at once, toss together lightly and gather dough into a ball. If dough crumbles, add up to 2 more tablespoons per batch you are making, drop by drop until particles adhere. Divide the dough in half, dust each half lightly with flour and wrap separately in sheets of wax paper. Refrigerate at least 3 hours until firm.

Filling: Soak the almonds in milk for 5-10 minutes. With the back of a large spoon, rub the jams through a fine sieve set over a large bowl. Then beat in it the egg yolks, sour cream, cinnamon, the nuts and their soaking milk. On a lightly floured surface, roll the dough into a 12" circle about 1/8" thick. With a pastry brush, coat the bottom and sides of a 9" false bottom tart pan with the softened butter. Gently press the pastry into the bottom and around the sides of the pan, being careful not to stretch it. Roll the pin over the rim of the pan, pressing down hard to trim off excess pastry. Preheat oven to 425. Pour the filling into the pastry shell and roll out other half of dough into a 12" circle. Drape it over the rolling pin, lift it up and unfold it over the filling. Press the edges of the pastry layers together. Then crimp them with your fingers or press them firmly around the rim with the prongs of a fork.. With a sharp knife, cut 3 slits about 1" apart in the top of the pastry. Bake in the center of the oven for 30 minutes or until pastry is golden brown. Then set the pan on a large jar or coffee can and carefully slip off the outside rim. Let the pie cool to room temperature before serving.

Strawberry-Rhubarb Pie

-----PIE CRUST-----

2 1/4 c Flour
3/4 c Shortening
5 T Milk, cold

1 c Sugar
1 lb Rhubarb, cut into
-1/2-inch pieces
6 c Strawberries (or less)
6 T Tapioca (tapioca
-starch preferred,
-but quick-cooking
-tapioca is okay, too)

Cut the strawberries in half. Place in a bowl with the rhubarb and add the sugar and tapioca. Mix and let sit for at least 15 minutes. Make the pie crust: Cut the shortening and flour together. This can be done with two knives, with a pastry cutter, or with some electric mixers. (I do mine in a Kitchen Aid food processor/mixer.) When the mixture has an even consistency (it should resemble coarse sand), add in the milk (or water). Take about 5/8ths of the dough and roll out on a floured board until it is a little bit larger than a 10-inch pie pan. Put this in the pie pan. (The rest of the dough is for the top of the pie.)

Pour the strawberries and rhubarb mixture into the pie crust. Roll out the remainder of the pie crust. Place on top of the pie, crimping the edges of the top and bottom crusts together. Make one or two slits in the top of the crust for steam to escape. Bake 45 to 50 minutes at 400 degrees F. or until Ayrup boils with heavy bubbles that do not burst.

1 c Sugar
2 Eggs
1 t Vanilla
4 c Flour
1 t Baking soda
2 t Cream of tartar
1/2 t Salt
 Extra sugar
 -(for dipping)

Cream the butter and sugars, then add oil and mix well. Add the eggs and vanilla and mix well.

Sift the flour, baking soda, cream of tartar and salt together, then add to above and mix well. Refrigerate overnight, or until dough is firm. If you want to speed this up, put the dough in the freezer, but keep an eye on it.

Preheat oven to 350 degrees F. Drop dough in 1/2 t amounts on an ungreased cookie sheet. Dip a glass in dough and wipe excess off. Then dip the glass in sugar and flatten a cookie. Repeat the dip-in-sugar flatten-cookie sequence until all are done. The cookies won't spread in baking, so you can easily judge how far apart to put them (you want room to cook, but not to grow). If you find that the dough is getting too soft to flatten easily, put it in the refrigerator between batches.

Bake for about 5-6 minutes, until the edges are JUST beginning to turn golden brown. Take off the cookie sheet and put on waxed paper or foil to cool.

1 pt Fresh blueberries

1/2 ts Ground cinnamon
Grated rind (colored part)

-only) from 1/2 lemon
 1 1/2 ts Fresh lemon juice
 1 tb Cold unsalted butter, cut
 -into slivers
 -----CRUST-----
 2 c All-purpose flour
 3 tb Granulated sugar
 1 tb Baking powder
 5 tb Cold unsalted butter, cut
 -into bits
 3/4 c Plus 1 tb whipping cream
 1 t Sugar

Usually made with a rolled sweet crust baked on top of fruit, the crust is "dowdied" by pushing the crust into the fruit to soften before serving or by inverting the crust during serving to the bottom of the serving bowl. Serve this warm from the oven or at room temperature, with or without ice cream.

1. Position a rack in the center of the oven and heat the oven to 425 degrees. Butter a deep-dish pie pan or an 8-inch-square baking dish; set aside.
2. Gently stir together the fruit, brown sugar, cinnamon, lemon rind and juice in a large bowl. Pour the fruit into the prepared pan. Scatter the 1 tablespoon butter slivers over the fruit.
3. For the crust, put flour, 3 tablespoons sugar and the baking powder in a large mixing bowl. Whisk to combine. Work the bits of butter into the flour mixture with a pastry blender until the mixture resembles coarse meal. Add 3/4 cup of the cream and stir with a fork. The mixture will be stringy. Knead with your hand about 45 seconds and it will become smooth.
4. Roll the dough to 1/4-inch thickness. Trim it to about 1/2 inch larger than the baking dish. Cut a small circle out of the center of the crust to serve as a steam vent, and carefully place the crust over the fruit. Do not press the crust against the sides of the pan. Reroll the scraps and cut as decorations if you desire. Brush the crust with the remaining 1 tablespoon of cream and sprinkle with the teaspoon of sugar.
5. Place the pandowdy on a baking sheet with raised sides and bake 10 minutes. Reduce the oven temperature to 350 degrees and loosely cover the crust with a foil tent, shiny side out. Continue baking until the crust is golden and the fruit bubbly, 35 to 45 minutes. Either "dowdy" the crust now by pushing it under the surface of the fruit or serve crust side down in bowls.

Summertime Pie

 1 sm Can of limeade
 1 cn Milnot
 1 lg Cool Whip

Stir well, the limeade, Milnot and Cool Whip. Pour into pie shell. Chill

for 2 hours before serving

Superior Whipping Cream

1/2 c Whipping cream
2 t Vanilla sugar
-(or use white sugar
-and about 1/2 t
-vanilla extract)

Shake the carton of whipping cream well and pour it into the blender or food processor. Add the vanilla sugar (see below if you don't know what vanilla sugar is.)

Whip the cream in the machine. If it's a food processor, leave the pushing device out; if a blender, remove the center of the lid, or just cover the top of the jar with your hand. The trick is to allow lots of air into the cream. Run the machine for no more than five seconds at a time, to avoid making butter. The cream is done when it holds a peak.

1/2 c Grits, regular

Gradually add to the bowl containing the beaten eggs, about 1/4th of the hot mixture; add the egg mixture to the remaining hot mixture, stirring constantly. Cook over low heat until the mixture thickens and reaches 160 degree F (about 8 minutes). Remove from heat, and stir in the flaked coconut and sour cream. Sweet Potato Pie

1 1/2 lb Sweet potatoes
1 c Sugar, granulated
12 T Butter, unsalted
 -(or use corn-oil
 -margarine)
2 Eggs
1 t Vanilla
1/2 t Nutmeg
1 Pie crust, unbaked

Boil potatoes until tender (20-30 minutes). Drain and peel.

In a blender, put the potatoes, sugar and butter. Mix up a little, then add eggs, vanilla and nutmeg. Blend ingredients together well, until mixture is very smooth. Pour into unbaked pie shell and bake at 375 degrees F. for 45-55 minutes until filling is set.

NOTES:

* This is an extremely simple and extremely good pie recipe. You can even cheat and use store-bought pie crusts, in which case the whole thing takes about 5 minutes to put together. Serves 3-8.

* If you don't want to make your own pie shell, I find that the Pet Ritz factory pie shells work well.

Waffle Cone

- 3 Eggs
- 3/4 c Sugar, granulated
- 1/2 c Butter, melted
- 2 t Vanilla
- 1 1/2 c Flour
- 2 t Baking powder

Beat the eggs and gradually beat in the sugar until the mixture is creamy. Stir in the melted butter and vanilla.

Combine the flour and baking powder, and then add it to the mixture. Blend it in well.

Drop about 4 t of the batter into a heated pizelle iron, and cook both sides over medium-high heat for about 1 minute each, or until golden brown.

Remove the waffle from the pizelle iron and immediately shape it into a cone while it is still pliable.

* A pizelle iron looks like a round waffle iron. There are "manual" irons and electric ones too. If you don't have a pizelle iron, another idea is to use an ordinary waffle iron and have ice-cream on top of the waffle. Not having either a waffle iron or a pizelle iron, we tried making these on an electric griddle, but since the batter is fairly thick it wouldn't spread into a large enough circle to make cones from.

* When you form the cones, there will probably be a small hole in the bottom of them that ice-cream can drip out of. One idea for plugging this hole is to put miniature marshmallows in the bottoms of the cones.

Waioli Tea Room Coconut Pie

2 c Milk
1/4 c Grated coconut
1/4 c Sugar
1/4 t Salt
4 Egg yolks
3 T Cornstarch
1/2 c Sugar
1 T Butter
1 t Vanilla
2 Drops almond extrace
Single crust pie shell ckd
4 Egg whites
1/4 t Cream of tartar
1/2 c Sugar
1/4 t Salt

Mix first four ingredients in the top of a double boiler. Place over, but not touching water. Bring water to a boil. Mix egg yolks, cornstarch and remaining 1/2 c sugar together and add to custard mixture in pan. Bring to a boil and cook until thickened, stirring frequently. (This will take some time, about 15 minutes. As it begins to cook it gets lumpy, but will smooth out as it thickens.) Mix butter, vanilla and almond extract together and add to thickened custard. Pour into baked and cooled pie shell. Top with meringue: Beat egg whites until stiff. Mix salt, cream of tartar and sugar together and add a little at a time to egg whites. Beat mixture until stiff and stands in peaks. Spread over pie being sure to touch crust all around. Bake at 350 degrees until golden brown, about 20 minutes.

Walnut Crumb Crust

1 c Fine graham cracker crumbs
OR gingersnap wafer crumbs

1/2 c Chopped walnuts
1/4 ts Salt
1/4 c Soft butter
1 T Honey

Mix all the ingredients and press into 9" pie pan. Bake in moderate oven over about 6 minutes. Cool before adding the pie filling.

Delicious base for cream pies or pumpkin pie.

Walnut Horns

2 c Flour
1 c Butter
8 oz Sour cream
1 Egg yolk
1 c Brown sugar
1 c Walnuts, ground
1/2 t Cinnamon, ground
Butter

Cream the flour and butter. Mix in the sour cream and the egg yolk.

Divide the dough into four parts, wrap in plastic wrap, and chill for several hours.

Mix together the brown sugar, walnuts and cinnamon.

Roll each dough section on a floured surface until about 1/8 inch thick. Spread about 1/4 of the sugar/walnut/cinnamon mixture over each rolled dough section. Cut the dough into pie-shaped wedges and roll, beginning at the wide end.

Place cookies on an ungreased cookie sheet. Brush with melted butter

(about 2 T should be enough). Bake for about 20 minutes at 375 degrees F. If you remove the cookies from the oven before they turn brown, the dough will be softer and flakier. If you remove them after they have browned slightly, the dough will be crisper.

Remove cookies from cookie sheet before they have cooled completely, or else they stick to the cookie sheet.

Whistle Stop's Sugar Cream Pie

1 1/2 c Brown sugar (do not pack)
6 tb All purpose flour
1 c Half and half
1 c Heavy whipping cream
pn Salt
1 ts Vanilla
Butter
Cinnamon

Mix together brown sugar and flour and put in bottom of an unbaked deep dish pie shell. Then mix together Half and half, whipping cream, salt, and vanilla. Slowly pour this mixture over the top of the brown sugar mixture. DO NOT STIR!!!! Dot with slices of butter and sprinkle with cinnamon. Bake 10 minutes at 450 degrees. Reduce heat to 325 degrees and bake for 50 minutes. Serve slices of pie slightly warm.

**I have found that baking the pie in a glass pie dish has better results than using the pie shell already in a aluminum pan. The aluminum ready pie

crust seems to over cook the brown sugar and make it hard instead of a gelatin type substance. Also Vanilla ice cream is a great accompaniment to the pie. Plus it will help ease some of the kick from the richness of the pie.

Serve liberally topped with freshly-made whipping cream.

NOTES:

* A Bavarian plum delicacy for dessert -- My mother and grandmother make this Bavarian specialty without a recipe; this recipe is from my mother, after I pressed her to write it down so I could make my own. It also includes variations from a few other folks that you might like to try. Roughly translated from Bavarian to German, this is Pflaumenkuchen, which, roughly translated from German to English is Plum cake. However, Zwetschgen aren't ordinary plums, a Datschi isn't really a Kuchen, and a Kuchen is most definitely NOT a cake!

This dessert is made of the slightly tart Italian plums, which are unfortunately only available at certain times of the year. Don't try to make it with ordinary plums; they're too sweet and too juicy. Fills one round cake pan.
